

**Bentley®**

A woman with long dark hair, wearing a white bathrobe, is sitting on a bed in a hotel room. She is smiling and looking towards the right, holding a black smartphone in her hands. The bed has white linens and a blue patterned blanket. In the background, there is a bedside table with a lit lamp and a window with dark blinds. The wall is a textured, brownish-gold color.

# WHY DO SO MANY COMPANIES CHOOSE BENTLEY?

**At Bentley Europe, we are passionate about designing, developing and selling the world's nicest hotel room products. This vision unites us as a team each and every day and is the foundation of our customer-driven culture: "We listen to you".**

## MEMORABLE GUEST EXPERIENCES

Making the world's nicest hotel room products can only happen with the world's greatest employees. We take great pride in our work, and take great care to deliver exceptional products like ironing boards and hospitality trays and other guestroom related products as an experience to our customers around the world.

We are proud to say that we have the largest collection of in-room ironing solutions and we are well known by international operating hotel chains for our hospitality trays, extra beds and bathroom products.

We challenge ourselves to be creative and lead in everything we do. From implementing the smallest improvements to executing big ideas, we are constantly increasing our competitive advantage to delight and excite you and your guests.

We're driven to Dutch design, make and sell the world's best hotel equipment and give hotel guests a memorable stay.

This brochure is all about the latest products, latest ideas and concepts. We listen to you, together we move forward. We are not just keeping up with the fast changing demand of the international leisure- and business hotel travellers, with your help we are always a step ahead.

## ALWAYS ON DUTY

### Environmental and social awareness

Bentley not only creates the right products to meet your needs, it is also aware of the world in which you live. Corporate social responsibility is one of our top priorities, and this applies to every product that leaves our factories.

An excellent example of this is the introduction of the world's first 0.5 litre kettle with maximum safety. This kettle also ranks highly on the sustainability scale, since it saves both water and energy. The disposable mentality is a thing of the past. We do not just want to *think* green, we want to *be* green.

STRONG, STABLE AND EASY TO USE

Your guests travel a lot and lead a busy life. Whether they are on a business trip or on a private holiday, in their hotel room your guests wish to relax in a pleasant, comfortable environment. And while they do so, they are also thinking about the day ahead, to tomorrow, which brings with it new plans, appointments, and other things to do.

# IRONING CENTRES

Clothes make the man or woman, so your guests will dress to look good. It goes without saying that they want to take care of their valuable possessions. With Bentley ironing units, you are meeting your guests' needs with regard to quality, offering them pure convenience at their fingertips and a brand they are likely to be familiar with already.

THE BENTLEY DESIGNERS

# FROM SKETCH TO HIGH-QUALITY APPLIANCE

Joop Steenkamer jr. and Helge Docters van Leeuwen both have a masters degree in Industrial Design from Delft University of Technology. They are Bentley Europe's in-house designers, who guarantee 100% superior-quality Dutch Design. Steenkamer graduated in 1992 and runs Steenkamer Design. He works in both industrial and graphic design. Docters van Leeuwen completed his degree in 2001 and works as a senior interior designer.

Joop Steenkamer designed our Ruby

Helge Docters van Leeuwen designed our Xanthic

**Joop Steenkamer**

*"It doesn't matter whether I'm designing the interior of an ambulance or whether it's a welcome tray: my design will always revolve around the user. After all, the user determines whether a product is good or not. Atmosphere and perception are just as important as usability, and price also plays an important part. I am constantly searching for an optimum balance between all these factors."*

**Helge Docters van Leeuwen**

*"For me, frustration can lead to inspiration. Existing coffee & tea trays are often a pile of loose trays and cups that fall over when you want to use them. Existing units also look like they have been designed so they are easy to clean, without taking into account the needs of the client, who wants to be able to really enjoy a cup of coffee or tea. I wanted to create a simpler and more natural product. Due to its natural and functional character, it made sense to choose wood. It has all the necessary requirements of a fixed style element, which, due to the character of the material, is easy to combine with many types of interior styles"*
