

TechVision Infiniti – User Manual

TV Set Up

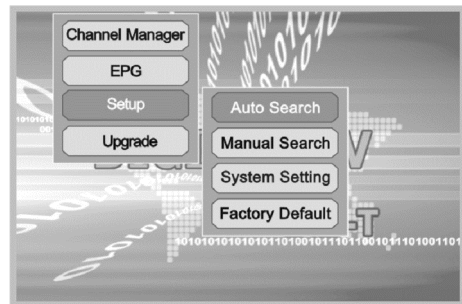

Quick Start Guide

The TV will display 'no signal' until it has been tuned in.

Turn TV on by pressing power.

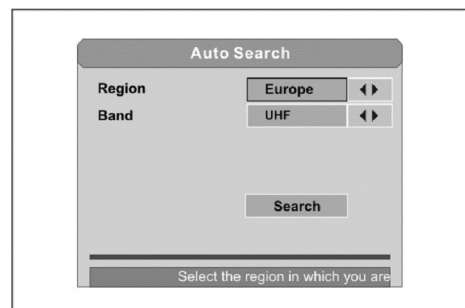

Then, using 'select' choose the TV channel. A 'DVB-T' screen saver should be displayed.

If it isn't, turn the TV on and off at the mains.

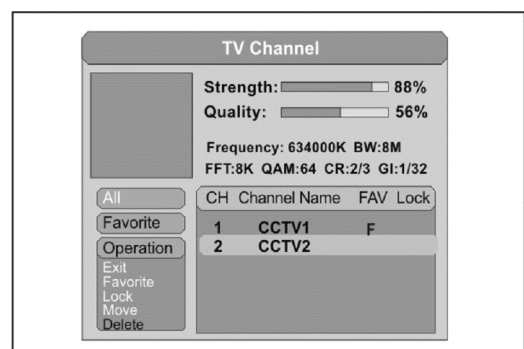

Press 'menu' to bring up the DVB-T menu screen, as shown here.

Using ▼ move to select and press 'OK'. Press OK again to select Auto Scan. Check settings are correct, as shown opposite, then navigate down to 'Search' and press 'OK'.

All available programs will be displayed on TV/radio window.

Press OK to save or exit to quit.

* Tip – to display Radio Channels press TV/Radio

General Precautions

1. Do not add any parts or use any accessories not provided from the manufacturer.
2. Temperature. (Storage 0~70, Operating 0~65) degrees C.
3. Make sure Anode (Positive) and Cathode (Negative) are correctly connected. It might damage your LCD if connecting wrong electrode.
4. Please replace new battery immediately when the battery runs out. The life of battery is one year.
5. The TV is waterproof IP67. This is fully waterproof, however, we would not suggest submerging in water.
6. Whilst the remote control is waterproof, we would not suggest floating it in water. It is recommended to dry the remote after use.
7. Clean the unit with a soft damp cloth. Do not use abrasive substances or materials that could scratch the glass panel
